

SARF/SAICE Mt Edcombe Interchange Site Visit – 17<sup>th</sup> May 2016

A joint SARF/SAICE site visit was held to the SANRAL Mt Edcombe Interchange project. Both organisations are extremely grateful to Henk Kaal for spending so much of his valuable time giving those who attended a detailed overview of the project and then showing the various aspects of the project on site. The following selection of photos do no justice to the overall experience on the project!
